

Production Certification Statement

Production of wine fermented on-site Less Than 20,000 Cases or 47,600 Gallons in Any One Year

If your facility's annual wine production has never exceeded 20,000 cases or 47,600 gallons in any one calendar year, air quality permits are not required at this time. However, to qualify for this permitting exception, a company official must complete and submit the following Production Certification Statement:

- I hereby certify that the winery named below has a maximum annual wine production (wine fermented on-site) of less than 20,000 cases or 47,600 gallons in any one calendar year.
- I hereby certify that I understand that I must obtain air quality permits from the San Joaquin Valley Air Pollution Control District if my winery's maximum production capacity exceeds these levels.
- Finally, I hereby certify that I hold an official position within the company that authorizes me to make these certifications.
