State Mandated Phase-Out of Orchard Removal Burning

In accordance with SB 705 all orchard removal burning in the San Joaquin Valley will be phased out according to the following schedule. New restrictions begin Jan 1 of each year. Be aware of the applicable prohibition dates for your operation and plan ahead. **The District cannot guarantee that allocation will be available leading up to the prohibition dates. Removals will not be allowed to burn after the applicable prohibition date, even if they have been inspected and placed on the waiting list.**

	2022	2023	2024	2025
Small Removals (≤15 Acres)	Prohibited at operations with >500 acres of total orchards at all locations	Prohibited at operations with >200 acres of total orchards at all locations	Prohibited at operations with >100 acres of total orchards at all locations	Prohibited for all operations
Larger Removals	Already prohibited for all size operations			

** Due to disease issues, apple, pear, and quince crops are exempt from these requirements*

Incentive funding is NOW AVAILABLE. For information on the District's Alternatives to Ag Burning grant program, visit <https://www.valleyair.org/grants/alt-ag-burning.htm> or call (559) 230-6000.
