Executive Summary

Emission control regulations form the basis of the San Joaquin Valley Air Pollution Control District's (District) control strategy for reduction of fine particulate matter (PM2.5) in the Valley. In addition, incentive programs play a critical role in accelerating deployment of cleaner technologies to expedite air quality improvements. As part of the *2018 Plan for the 1997, 2006, and 2012 PM2.5 Standards* (*2018 PM2.5 Plan*)[1], the District committed to develop an enhanced wood burning emission reduction strategy. This measure included both the adoption of enhanced curtailment levels in District Rule 4901 (Wood Burning Heaters and Wood Burning Fireplaces), as well as a measure to use incentive funds to achieve emission reductions in 2024 and 2025 through accelerated replacement of wood burning heaters and fireplaces through the District's *Fireplace and Woodstove Change-out Program*.

In 2021, the Governing Board adopted the incentive commitment and the District requested State Implementation Plan (SIP) credit for the *Fireplace and Woodstove Change-Out Program.*[2] Specifically, the District committed to monitor implementation of 16,450 fireplace and woodstove change-out projects and achieve 0.33 tons per day (tpd) of reductions in PM2.5 emissions. Additionally, as part of the attainment strategy in the *2024 Plan for the 2012 Annual PM2.5 Standard* (*2024 PM2.5 Plan*), the District included a commitment to obtain SIP credit for the emissions reductions achieved by this program through the existing quantification methodology approved by EPA, for projects completed through 2026.

This report demonstrates that the District has surpassed the required aggregate incentive-based commitment of 0.33 tpd of PM2.5 emissions reductions from the *Fireplace and Woodstove Change-out Program.* The total emission reductions from this program are 0.34 tpd of PM2.5.

I. Introduction

The U.S. Environmental Protection Agency (EPA) periodically reviews and establishes health-based air quality standards for ozone, particulate matter, and other pollutants. Although the San Joaquin Valley's (Valley) air quality is steadily improving, the Valley experiences unique and significant difficulties in achieving these increasingly stringent standards. The District has implemented several generations of emissions control measures for stationary and area sources under its jurisdiction. Similarly, the California Air Resources Board has adopted stringent regulations for mobile sources. Together, these efforts represent the nation's toughest air pollution emissions controls and have

[1] SJVAPCD. *2018 Plan for the 1997, 2006, and 2012 PM2.5 Standards.* (November 15, 2018). Retrieved from: https://archive.valleyair.org/pmplans/documents/2018/pm-plan-adopted/2018-Plan-for-the-1997-2006-and-2012-PM2.5-Standards.pdf

[2] SJVAPCD. *State Implementation Plan Credit for Residential Wood Burning Device Change-out Incentive Measure.* (November 18, 2021). Retrieved from: https://www.valleyair.org/Board_meetings/GB/agenda_minutes/Agenda/2021/November/final/07.pdf

greatly contributed to reduce ozone and particulate matter concentrations in the Valley. Despite the significant progress under these regulations, greatly aided by the efforts of Valley businesses, agricultural entities, and residents, many air quality challenges remain, including attainment of EPA's most recent federal air quality standards for PM2.5.

On November 15, 2018, the District adopted the *2018 PM2.5 Plan*, which included a comprehensive set of local and state measures that built on existing measures to reduce air pollution from stationary, area, and mobile sources throughout the Valley. The development of the *2018 PM2.5 Plan* utilized extensive science and research, state of the art air quality modeling, and the best available information in developing a strategy for bringing the Valley into attainment of the federal health-based PM2.5 standards as expeditiously as practicable. This attainment strategy included a suite of innovative regulatory and incentive-based measures, supported by robust public education and outreach efforts, to reduce PM2.5 and nitrogen oxides (NOx) emissions from mobile and stationary sources throughout the Valley.

While regulations form the basis of the Valley's PM2.5 attainment strategy, emission reductions achieved through voluntary incentive programs are necessary to reduce pollution from sources over which the District does not have regulatory jurisdiction, such as mobile sources, in time to meet the federal deadlines. As part of the *2018 PM2.5 Plan*, the District committed to develop a series of defined new emission reduction measures, and to achieve aggregate emission reductions by certain dates. While the *2018 PM2.5 Plan* included estimates of emission reductions from each of the individual new measures, the District's overall commitment is to achieve the total emission reductions necessary, in aggregate, to attain the federal air quality standards, reflecting the combined reductions from the existing control strategy and new measures. Each measure may get more or less reductions than those estimated, however the District is still committed to achieving the total aggregate emission reductions identified in the Plan.

II. Rule 4901 and Fireplace and Woodstove Change-Out Program

Air quality modeling analysis conducted for the *2018 PM2.5 Plan* demonstrated that attaining the health-based PM2.5 standards by federally mandated deadlines is not possible without significant additional reductions in wood smoke emissions. The District's residential wood burning emission reduction strategy includes wood burning curtailments implemented through District Rule 4901 (Wood Burning Fireplaces and Wood Burning Heaters), in conjunction with the District's incentive *Fireplace and Woodstove Change-Out Program*, and robust public education and outreach efforts. This approach is designed to improve public health by reducing toxic wood smoke emissions in Valley neighborhoods during the peak PM2.5 winter season (November through February), and has proven to be extremely effective in advancing the District's objectives to attain the federal PM2.5 standards and protect public health. Commitments in the Plan included rulemaking for Rule 4901 to further lower wood

burning curtailment levels, as well as enhancements to the District's incentive grant funding levels, public outreach and education, enforcement, and air quality forecasting programs.

The District's *Fireplace and Woodstove Change-Out Program* plays a key role in reducing emissions from residential wood burning by encouraging a transition from the use of higher polluting wood burning heaters and fireplaces to cleaner alternatives. Since 2006, the *Fireplace and Woodstove Change-Out Program* has helped Valley residents overcome the financial obstacles in purchasing cleaner alternatives by providing incentives to replace wood burning devices with natural gas or EPA-certified wood or pellet devices. The District has been able to achieve significant PM2.5 emission reductions through the *Fireplace and Woodstove Change-Out Program* and continues to see high demand from Valley residents.

The *Fireplace and Woodstove Change-Out Program* is implemented through robust guidelines and processes consistent with state and federal guidance for SIP creditable emissions reduction incentive programs. In order to participate in the *Fireplace and Woodstove Change-Out Program*, residents must submit an application and receive approval prior to purchasing and installing their new lower emitting device. The program is implemented in conjunction with a network of partnering retailers throughout the Valley who are able to provide participants the services necessary to complete their project. Participants are reimbursed for their approved incentive amounts, following verification that the project has been completed and the new device has been installed.

III. History of State Implementation Plan Commitment

On November 18, 2021, the District presented the *State Implementation Plan Credit for Residential Wood Burning Device Change-Out Incentive Measure* to the Governing Board. The incentive program and resolution was prepared to fulfill a Plan commitment for emission reductions from the District's *Fireplace and Woodstove Change-Out Program* for approval into the SIP by EPA. Emission reductions from this program (0.33 tpd of PM2.5 on an annual average) are credited towards the District's 2024 and 2025 aggregate emission reduction commitment in the *2018 PM2.5 Plan* for the 35 µg/m^3 24-hour PM2.5 standard and 12 µg/m^3 annual PM2.5 standard, respectively. Using CARB and EPA approved methodologies updated to account for wood burning curtailments, District staff quantified PM2.5 emission reductions from woodstove and fireplace change-outs.

On November 28, 2023, EPA finalized approval of the incentive measure into the SIP, making the determination that the program complies with CAA requirements.[3] However, as part of the approval, EPA did not include SIP credit for the quantified emission reductions achieved by the measure, due to recent court rulings that vacated

[3] EPA. *Air Plan Revisions; California; San Joaquin Valley Unified Air Pollution Control District; Final Rule*. 88 Fed. Reg. 227, pp. 83034-83036. (November 28, 2023). Retrieved from: https://www.govinfo.gov/content/pkg/FR-2023-11-28/pdf/2023-26013.pdf

and remanded a portion of the EPA's approval of the 2006 24-hour PM2.5 standard portions of the *2018 PM2.5 Plan*.[4] Therefore, as part of the attainment strategy in the *2024 PM2.5 Plan for the 2012 Annual PM2.5 Standard*, the District requested that EPA provide SIP credit for the emissions reductions achieved by this program for projects completed through 2026 through the existing quantification methodology approved by EPA.

This *2024 Annual Demonstration Report* shows the District's continued achievement of reductions through this program, and fulfills the District's commitment to measure and track programmatic results in meeting the 0.33 tpd total emissions reduction stated above.

IV. Enforceable Commitment and Reporting Mechanism

As part of the Residential Wood Burning Device Change-Out Incentive Measure, the District has implemented an enforceable commitment to track the progress of meeting SIP-Creditable emission reductions. The District funds, implements, tracks the progress, and reports *Fireplace and Woodstove Change-Out Program* projects to EPA to meet the commitment of this incentive measure.

As part of the resolution adopted November 18, 2021, the District has committed to do the following:

1. Monitor implementation of 16,450 fireplace and woodstove change-out projects in accordance with the *Fireplace and Woodstove Change-Out Program* Voucher Guidelines effective September 2015, *Fireplace & Woodstove Change-Out Program* Voucher Guidelines effective September 2019, and associated program documents;

2. By December 31, 2023, achieve 0.33 tons per day of reductions in PM2.5 emissions from the 2024 annual average baseline inventory in the *2018 PM2.5 Plan*, Appendix B, Table B-1, through implementation of projects identified in Paragraph 1 or substitute measures adopted and submitted in accordance with Paragraph 7 below;

3. By December 31, 2024, achieve 0.33 tons per day of reductions in PM2.5 emissions from the 2025 annual average baseline inventory in the *2018 PM2.5 Plan*, Appendix B, Table B-1, through implementation of projects identified in Paragraph 1 or substitute measures adopted and submitted in accordance with Paragraph 8 below;

[4] *Medical Advocates for Healthy Air v. U.S. Environmental Protection Agency*, Case No. 20–72780, Dkt. #58–1 (9th Cir., April 13, 2022).

4. By August 31st of each year, beginning in 2022 and through 2025, submit an annual demonstration report to EPA that includes the following information:

    i. Identification of the portion of the 16,450 needed projects funded through the previous year by project identification number, implementation date, description of both baseline and new equipment, and any other information necessary to independently calculate emissions reductions, and quantified emission reductions;

    ii. A description of the actions taken and documentation collected by the District in the previous year to monitor implemented projects' compliance with program requirements;

    iii. A description of any changes to the program criteria and relevant forms, and related impacts on program integrity;

    iv. A determination of whether the identified incentive projects are projected to achieve the full amount of PM2.5 emission reductions identified in Paragraphs 2 and 3, and the District's basis for that determination.

5. Beginning upon adoption and through 2030, provide any requestor, consistent with the California Records Act, all documents relied upon in the preparation of the annual demonstration report described in Paragraph 4 and available in the relevant project file, including: project applications, low-income eligibility forms, rental property owner & tenant approval forms, program vouchers, claim for payment packets (including photographic documentation of replacement devices and invoices identifying device make, model, and identifying the certified installer), destruction verification forms (including photographic documentation of baseline wood burning devices), retailer agreements, and any available inspection or audit-related documentation;

6. By August 31st of each year, beginning in 2022 through 2030, the District shall make the annual demonstration report available at http://valleyair.org/grants/apps/burncleaner/Home and available to public upon request;

7. If EPA determines by December 1, 2023, that information submitted by the District is insufficient to demonstrate that emission reductions required under Paragraph 2 will occur on schedule, adopt and submit to U.S. EPA, no later than September 1, 2024, substitute regulatory measures that will achieve emission reductions addressing the shortfall as expeditiously as practicable and no later than January 1, 2025;

8. If EPA makes an insufficiency finding in accordance with Paragraph 7, the District's obligations under Paragraphs 1 and 4 are terminated as of the date of such finding.

The contracting, reporting, and inspection provisions discussed in this section ensure that projects in the *Fireplace & Woodstove Change-Out Program* are independently verifiable and meet the criteria for emission reductions to be "enforceable" as defined by U.S. EPA guidance.

In August 2022, 2023, and 2024 the District published in-depth demonstration reports for projects completed from 2016 to 2021, 2022, and 2023 respectively.[5,6,7] These reports provided vital information about the program's progress, demonstrating that the District is on track to achieve the emissions reduction commitment in the *2018 PM2.5 Plan*. This Annual Demonstration Report, with appendices, includes information for projects completed through 2024, fulfilling the commitment in paragraph 4 above.

V. Fireplace and Woodstove Change-out Program History

Effective December 1, 2021,[8] the District eliminated incentives in the *Fireplace and Woodstove Change-Out Program* for the purchase and installation of new certified wood or pellet devices in areas of the District with access to natural gas. This update was intended to encourage residents to pursue the cleanest replacement options when changing devices, consistent with the District's ongoing need to accelerate the deployment of the cleanest available technology and to achieve significant reductions in PM2.5 Valley-wide in the near term.

On September 15, 2022, the District proposed to increase incentive funding amounts for residents living in homes with access to piped natural gas. Updated incentive funding amounts are reflected in Table 1 below. Additionally, a new option in the Program was added in 2022, providing up to $750 to residents to permanently dismantle/decommission their fireplace, in lieu of installing a replacement unit. Funding for decommissioning cannot be combined with replacement options. Applicants are required to complete and submit a Fireplace Decommissioning Form during the application process to certify and confirm how they will permanently render their old wood-burning device inoperable.

In recognition of the continued success of the District's *Fireplace and Woodstove Change-Out Program*, in 2023 the District was awarded $8,590,223 through the EPA's competitive Targeted Air Shed Grant Program to further support the replacement of wood-burning devices.

The most recent update to the program was the Low-Income Eligibility Form. This form was updated to reflect the U.S. Department of Health and Human Services Poverty Guidelines for 2024.

VI. 2024 Program Criteria and Compliance

To participate in the *Fireplace and Woodstove Change-out Program*, Valley residents submit a program application through the District's online application portal[9] and receive approval prior to purchasing and installing their new lower emitting device. The program is implemented in partnership with a Valley-wide network of contracted retailer partners who are able to provide participants the services necessary to complete their project. Currently, incentives of up to $5,000 are available to Valley residents depending on the physical address, or device address, of the old wood-burning device that will be replaced through the program, and whether the residential property is in an area that has access to piped natural gas. Table 1 below outlines the current incentives available in the *Fireplace and Woodstove Change-out Program*.

[9] SJVAPCD. *Fireplace and Woodstove Change-Out Application Portal.* Retrieved from: https://apps.valleyair.org/BurnCleaner/BurnCleanerForm

Table 1 Fireplace and Woodstove Change-out Program Incentives

ACCESS TO NATURAL GAS	LOCATION OF OLD DEVICE	ELIGIBLE NEW DEVICE TYPE	INCENTIVE LEVEL
Residence WITH access to piped natural gas	***Hot Spot Counties*** Madera, Fresno, or the Valley Air Basin portion of Kern County, or ***AB 617 Stockton Community***	Natural Gas Insert/ Freestanding Stove	**Up to $3,500*** *+ $650 for eligible installation costs*
		Electric Heat Pump	**Up to $5,000***
	Kings, Merced, San Joaquin, Stanislaus or Tulare County	Natural Gas Insert/ Freestanding Stove	**Up to $2,000** *+ $650 for eligible installation costs*
		Electric Heat Pump	**Up to $3,500**
		Low-Income	**Additional $1,500** *for qualified applicants*
Residence WITHOUT access to piped natural gas	Fresno, Kings, Madera, Merced, San Joaquin, Stanislaus, Tulare or the Valley Air Basin portion of Kern County	Certified wood insert/ Freestanding stove	**Up to $1,000**
		Certified pellet insert/ Freestanding stove	**Up to $1,000**
		Natural Gas insert/ Freestanding stove	**Up to $2,000** *+ $650 for eligible installation costs*
		Electric Heat Pump	**Up to $3,500**
		Low-income	**Additional $1,500** *for qualified applicants*
Fireplace Decommissioning *(Funding cannot be combined with replacement options)*			**Up to $750**

**Regardless of income*

For fireplace replacement, the old device must be located at a residence within the District's boundaries. Applicants must submit an application and obtain an approved voucher from the District prior to purchasing the new device. The eligibility of the new device is based on the old device type, location of the old device and if the residence has access to piped natural gas. Table 2 below shows the device eligibility for fireplace replacement.

Table 2 Device Eligibility for Fireplace Replacement

LOCATION OF OLD DEVICE	OLD DEVICE TYPE	NEW DEVICE TYPE: Certified Wood/Pellet *Insert, Freestanding Stove or Fireplace*	NEW DEVICE TYPE: Natural Gas/Propane *Insert, Freestanding Stove or Fireplace*	NEW DEVICE TYPE: Electric Heat Pump
Areas with Access to Natural Gas	**Open Hearth** *Wood-burining Fireplace*	✗	✓	✓
	Non-Certified Wood/Pellet *Insert or Freestanding Stove*	✗	✓	✓
	Certified Wood/Pellet *Insert or Freestanding Stove*	✗	✓	✓
	Natural Gas/Propane *Insert or Freestanding Stove*	✗	✗	✗
	Electric *Insert or Freestanding/ Wall-mounted Fireplace*	✗	✗	✗
Areas without Access to Natural Gas	**Open Hearth** *Wood-burning Fireplace*	✓	✓	✓
	Non-Certified Wood/Pellet *Insert or Freestanding Stove*	✓	✓	✓
	Certified Wood/Pellet *Insert or Freestanding Stove*	✗	✓	✓
	Natural Gas/Propane *Insert, Freestanding Stove, Logs or Fireplace*	✗	✗	✗
	Electric *Insert or Freestanding/ Wall-mounted Fireplace*	✗	✗	✗

For fireplace decommissioning, the old device must be located at a residence within the District's boundaries. Applicants must submit an application and obtain an approved voucher from the District prior to any decommissioning work taking place. The fireplace decommissioning option cannot be combined with the above option for fireplace replacement as only one voucher may be issued per address. Table 3 below shows the device eligibility for fireplace decommissioning.

Table 3 Device Eligibility for Fireplace Decommissioning

OLD DEVICE TYPE	FIREPLACE DECOMMISSIONING
Open Hearth *Wood-burning Fireplace*	✓
Non-Certified Wood/Pellet *Insert or Freestanding Stove*	✓
Certified Wood/Pellet *Insert or Freestanding Stove*	✓
Natural Gas/Propane *Insert, Freestanding Stove, Logs, or Fireplace*	✗
Electric *Insert or Freestanding/Wall-mounted Fireplace*	✗

Participation in the *Fireplace and Woodstove Change-out Program* occurs in three phases. Phase 1 includes a completed Voucher Application and all required documents to the District for voucher approval. Phase 2 includes an approved voucher that can be presented to a participating program retailer and purchase and install of the applicant's new device, or a completed fireplace decommissioning through a licensed contractor. Phase 3 includes voucher redemption by submitting a complete Claim for Payment Packet to the District, and the District will reimburse the applicant for eligible costs, up to the approved voucher amount.

Additionally, as part of the Voucher Application process, two photos are required to determine eligibility. The first photo must show the inside of the unmodified device/hearth, with all doors/screen open. The second photo must be taken from floor to ceiling to show the old/device hearth with all original parts intact, and surrounding structures that will clearly distinguish the location of the fireplace in the room. One photo is also required during the Claim for Payment process. The photo must be taken from floor to ceiling to show the new device/hearth, and surrounding structures that will clearly distinguish the location of the fireplace in the room.

The District has established procedures, voucher guidelines, applications, claim for payment forms and other associated documents to ensure that all projects meet program requirements, and are consistent with EPA guidance. The projects are fully documented and confirmed to be in compliance with program requirements prior to approval of payment on claims.

The latest versions of the Voucher Application form, Voucher Guidelines, Low-Income Eligibility Form, Rental Property Owner & Tenant Approval form, Fireplace Decommissioning Form and the Program Retailers list, are included in Appendix B for reference.

VII. Enhanced Outreach and Advertising Campaign Executed in 2024

During the 2024 winter season, the District collaborated with Valley stakeholders to implement the Residential Wood Smoke Reduction program, aimed at protecting and maintaining air quality in the Valley.

The District's annual multimedia and multicultural outreach and educational campaign has been key to reducing PM2.5 levels since the adoption of Rule 4901 (Wood Burning Fireplaces & Heaters). These efforts have increased public awareness of PM2.5's health risks and encouraged more residents to take advantage of District grant programs.

A robust media strategy reinforces the District's communication efforts during the Residential Wood Smoke Reduction Season campaign. By leveraging a combination of *earned*, *paid*, and *owned* media, the District effectively engages target audiences, enhances public understanding of air quality issues, and encourages program

participation to protect public health. Earned media—such as news coverage, shares, and mentions—helps broaden awareness through trusted third-party sources. Owned media includes the District's websites (valleyair.org and healthyairliving.com), social media platforms (X, Facebook, Instagram, NextDoor, LinkedIn, Threads), YouTube channel, and the Valley Air app, providing direct access to valuable information. Paid media initiatives, including digital and traditional advertising, further amplify campaign messages, drive traffic to owned platforms, and reinforce the importance of reducing wood-smoke pollution.

Through this strategic, multi-platform approach, the District continues to maximize its outreach efforts, ensuring Valley residents receive timely, relevant information about air quality and available programs to support cleaner air. Such outreach efforts include the following:

- Advancing the "Choose Not to Burn" Message
- Paid Media Success
- Digital Advertising: Search, Display, and Retargeting
- Outdoor Advertising: Billboards and Carteles
- Social Media Advertising: Targeted Community Engagement
- Campaign Achievements and Impact
- Owned Media Success
- Earned Media Success

VIII. Projects Funded in 2024 and Cumulative PM2.5 Emission Reductions

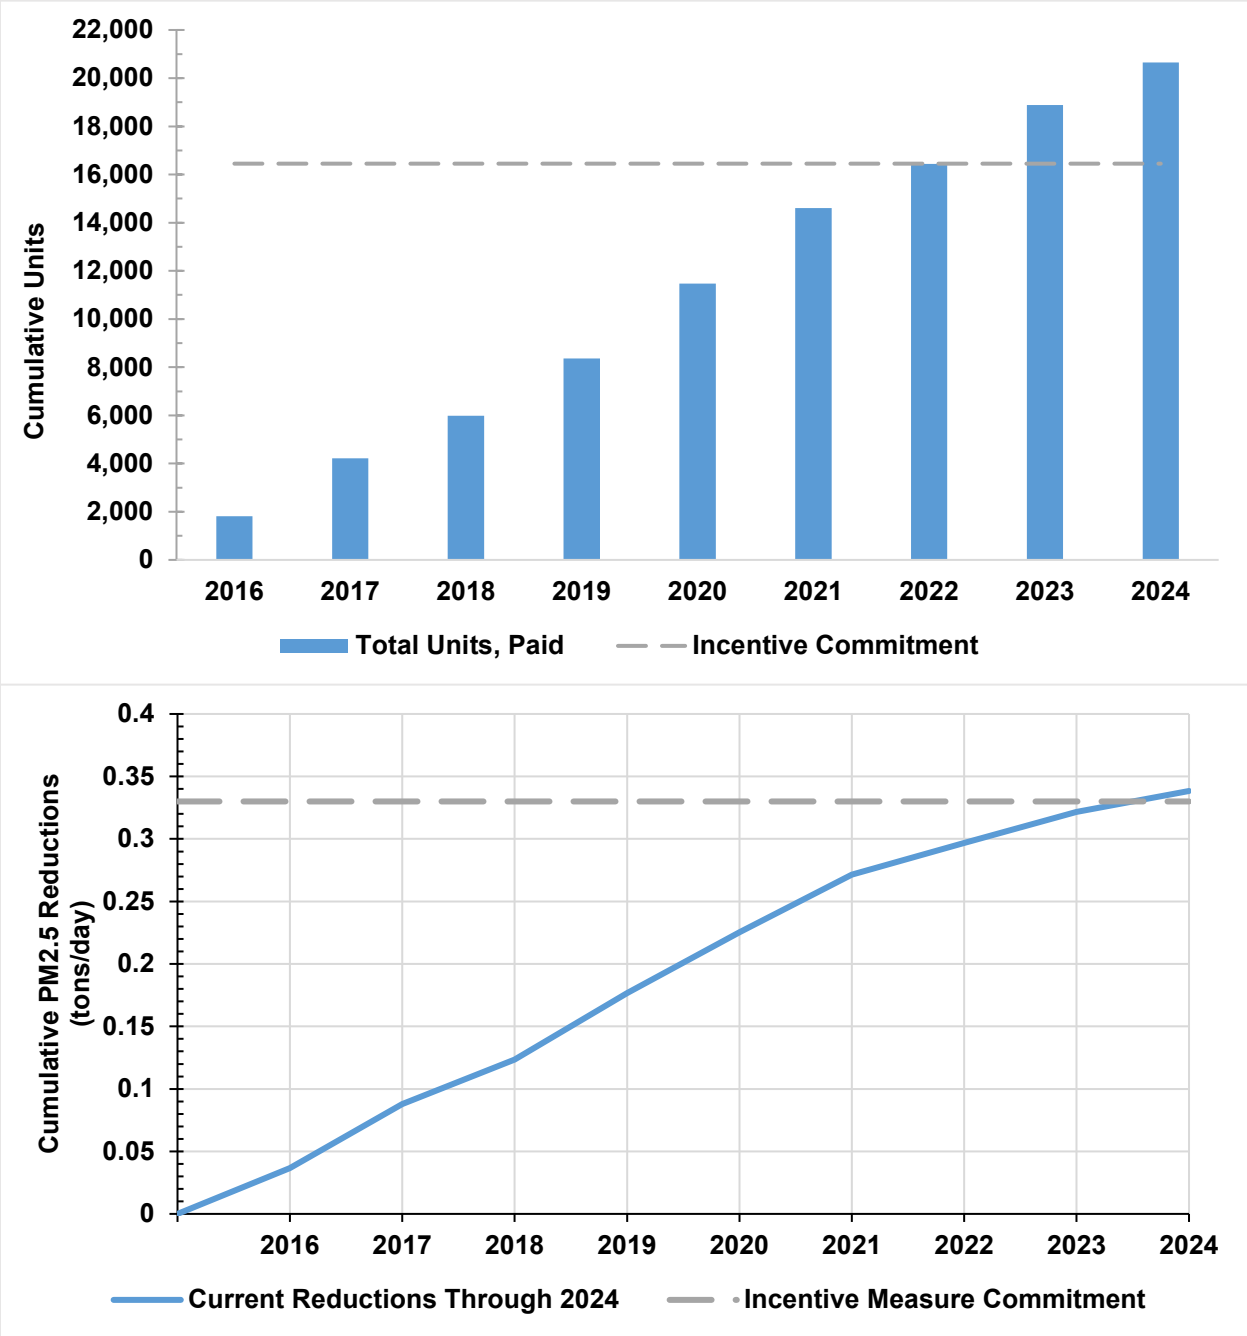

As part of the enforceable commitment, the District committed to funding 16,450 Fireplace & Woodstove Change-Out projects. From 2016 to 2024, the District provided over $56 million in incentive funding for the installation of 20,644 cleaner burning devices that include gas, pellet and wood devices, which is an additional 1,765 projects funded from the previous year. This exceeds the District's commitment to replace 16,450 units by the December 31, 2023, deadline.

In the *2023 Annual Report*, the District took into account an additional 586 change-outs that had not been paid as of December 31, 2023. This brought the total number of device change-outs to 19,465 with total PM2.5 emissions reductions of 0.33 tpd. However, this *2024 Annual Report* will revert to demonstrating the units that have a paid claim date. To that end, the District has met its commitment to replace 16,450 units and achieved the 0.33 tpd emissions reductions. Therefore, the total number of units that were replaced from 2016 to 2024 is 20,644, yielding 0.34 tpd of PM2.5 emission reductions.

Figure 1 shows the cumulative change-outs and PM2.5 emissions reductions from the *Fireplace and Woodstove Change-Out Program*, and demonstrates that the Program has exceeded the emissions reductions in paragraphs 2 and 3 of the enforceable

commitment. The methodology used to calculate the emissions reduction for each project is provided in Appendix A. The completed projects along with the individual emission reductions are detailed in Appendix C.

Figure 1 Fireplace and Woodstove Change-Out Program
Cumulative Change-Out Units and PM2.5 Reductions

Appendix A
Calculation Methodology

Using the woodstove replacement project list detailed in Appendix C, the District followed the EPA Guidance to develop this methodology for the calculation of emission reductions from *Fireplace and Woodstove Change-Out Program* projects. The formulae for calculating the credits were based on EPA's Guidance for *Quantifying and Using Emission Reductions from Voluntary Woodstove Changeout Programs in State Implementation Plans* prepared in 2006.[1] This calculation methodology was originally published as part of the Burn Cleaner Fireplace and Woodstove Change-out Incentive Measure Staff Report[2] and is reproduced here for reference.

I. General Equation for Emission Reductions

The following general equation determines emissions of any source category.[3]

$$E = A \times EF \times (1 - \frac{ER}{100}) \quad \textbf{(Equation 1)}$$

Where:

E = emissions;
A = activity rate;
EF = emissions factor; and
ER = overall emission reduction efficiency, %.

II. Wood Stove Specific Equation for Emission Reductions

To determine emissions reductions due to the change in efficiency from old conventional stoves to newer and more efficient stoves, the general equation above can account for efficiency with the following adjustments[4]:

$$E = A \times EF \times \left({}^{NE_{conv}}/_{NE_{new}}\right) \quad \textbf{(Equation 2)}$$

Where:

E = emissions;
A = activity rate (wood fuel usage x mass conversion);
EF = emissions factor;
NE_{conv} = net efficiency of the conventional stove; and
NE_{new} = net efficiency of the new stove.

[4] EPA. *Burn Wise.* Retrieved 8/29/22 from Pg. B3, https://www.epa.gov/sites/default/files/documents/guidance_quantfying_jan.pdf

III. Rule 4901 Curtailment-Corrected Equations

The District's Rule 4901 (Wood Burning Fireplaces and Wood Burning Heaters)[5] sets forth a tiered episodic wood burning curtailment program implemented through the District's *Residential Wood Smoke Reduction Program*. The District has declared and enforced these curtailments, also called "No burn" days, since 2003. Most recently amended on May 18, 2023, Rule 4901 represents the most stringent wood burning curtailment program in the nation. In order to ensure that emission reductions achieved by woodstove change-outs in the Valley are surplus reductions, this analysis will explicitly account for this tiered curtailment program by modifying **Equation 2** for the older replaced units and the newer units, as in the following two equations:

$$E_{old} = A \times EF_{old} \times B_{all} \quad \textbf{(Equation 3)}$$

Where:

E_{old} = old unit emissions;
A = activity rate (wood fuel usage x mass conversion);
EF_{old} = old unit emissions factor; and
B_{all} = ratio of days that no burn restrictions are called.

$$E_{new} = A \times EF_{new} \times \left(\frac{NE_{conv}}{NE_{new}}\right) \times \left[B_{all} + \left(B_{reg} \times R\right)\right] \quad \textbf{(Equation 4)}$$

Where:

E_{new} = new unit emissions;
A = activity rate (wood fuel usage x mass conversion);
EF_{new} = new unit emissions factor;
NE_{conv} = net efficiency of the conventional stove;
NE_{new} = net efficiency of the new stove;
B_{all} = ratio of days that no burn restrictions are called;
B_{reg} = ratio of days that no burn unless registered is called; and
R = ratio of devices eligible for registration that are registered based on 2019 registration data.

These modifications to **Equation 2** discount the amount of emission reductions claimed to take into account days when burning will not be allowed due to the rule requirements.

IV. Determining Activity Rate (A)

Activity is derived from the District's *2015 Area Source Emissions Inventory Methodology*[6], and can be found summarized below in Table A-1. Wood consumption rates for the Fireplace category are based on the weighted average of the two usage

[5] SJVAPCD. Rule 4901 – Wood Burning Fireplaces and Wood Burning Heaters. Retrieved from:
[6] SJVAPCD Residential Wood Combustion 2016. *2015 Area Source Emissions Inventory Methodology 610 – Residential Wood Combustion.* Retrieved 9/15/20 https://www.valleyair.org/Air_Quality_Plans/EmissionsMethods/MethodForms/Current/ResidentialWoodCombustion2016.pdf

categories in the methodology. Fireplaces used for aesthetic purposes are assumed to be 69.5% of fireplaces with 0.143 cord/yr wood consumption, with the remaining 30.5% used for heating purposes and a wood consumption rate of 0.656 cord/yr. This results in a weighted average of 0.299 cord/yr.

Table A-1 Wood Consumption Rates (Cords/Yr)

County	Fireplace	Insert	Stove
Fresno	0.299	2.10	2.09
Kern	0.299	2.10	1.57
Kings	0.299	2.10	1.16
Madera	0.299	2.10	2.61
Merced	0.299	2.10	2.67
San Joaquin	0.299	2.10	1.15
Stanislaus	0.299	2.10	1.55
Tulare	0.299	2.10	2.40

To convert the activity rate to tons per year an average wood density for California of 1.54 tons per cord[7, 8] is used, per **Equation 5** below.

$$A = W \times \delta_{CA} \quad \textbf{(Equation 5)}$$

Where:

A = activity rate;
W = Wood consumption rate; and
δ_{CA} = Average wood density in California

V. Determining Emission Factors (EF_{new} & EF_{old})

For new units, the emission rate is determined through the *EPA Certified Wood Heater Database*[9] using the make and model identified for each project:

$$EF_{new} = \frac{ER \times 1.5}{BR} \times 2 \quad \textbf{(Equation 6)}$$

Where:

EF_{new} = new unit emissions factor in pounds per ton;
ER = emissions rate in grams per hour;
BR = average burn rate in kilograms per hour of operation;

[7] *Ibid.*
[8] Omni Environmental Services, Inc. (2006, October 24). *Residential Wood Combustion Emission Inventory South Coast Air Basin and Coachella Valley Portion of Salton Sea Air Basin 2002 Base Year.* Retrieved 9/15/2020 from http://www.omni-test.com/publications/SCAQMD-RWC4.pdf
[9] EPA. *EPA Certified Wood Heater Database.* Retrieved 9/15/2020 from https://www.epa.gov/compliance/epa-certified-wood-heater-database

1.5 = Factor used to scale certification test emission rate to reflect real world emissions[10, 11]; and
2 = Factor used to convert grams per kilogram to pounds per ton.

This methodology uses 1.5 kg/hr as a burn rate[12]. The calculated emission factor above is appropriate to better determine the actual emission reductions from projects with new certified wood devices. For gas fired replacements, or electric heat pump projects the new unit emissions factor is taken to be zero.

For the older replaced units, the emission factors (EF_{old}) are based on the District's *2015 Area Source Emissions Inventory Methodology*[13], shown in Table A-2 below. For certified stoves, there are differing emission factors for catalytic and non-catalytic units. This methodology accounts for this by using a weighted average from the methodology, based on the percentage of devices by type. In this case, 8.7% of devices are assumed to be catalytic with a 19.6 lb/ton emission factor, and 91.3% of devices are assumed to be non-catalytic with an emissions factor of 14.1 lb/ton, for we weighted average of 14.579 lb/ton.

Table A-2 Emission Factors for Old Replaced Units

Old device type	Emission Factor (lb PM2.5/ton wood)
Uncertified Stove	29.5
Certified Stove	14.579
Fireplace	22.7
Pellet Stove	2.9

VI. Determining Efficiency Values (NE_x)

When available, the efficiency of the new stoves certified to meet the 2015 New Source Performance Standards[14] (NSPS), the EPA Certified Wood Heater Database[15] provides a device specific efficiency rating. If the efficiency values are not available for the new replacement units, and for the old units, default values from Table A-3 below are used.

Table A-3 Default Efficiency Values

Device Type	Efficiency
Uncertified Stove[16]	54%
Certified Stove[17]	68%
Pellet Stove[18]	68%
Fireplace[19]	7%

VII. Determining Factors for Curtailment Accounting (B_{all} & B_{reg})

These factors reduce the emissions reductions from previously used methodologies, representing a conservative evaluation of emission reductions attributable to these incentive projects.

B_{all} and B_{reg} are calculated based on expected number of curtailments. The information necessary to determine these factors was identified in the staff report for the 2019 amendments to Rule 4901[20]. Table A-4 takes the expected number of days no one may burn, and the number of days only registered units may burn based on Table B-9 and Table B-10 in the Rule 4901 Staff Report.

The Rule 4901 analysis used the observed PM2.5 concentrations from the 2014-15, 2015-16, 2016-17, 2017-18, and 2018-19 wood burning seasons to generate those tables. Basing these numbers on the same years used in the calculations for Rule 4901 ensures there is no double counting of emissions reductions between these two deeply interconnected processes.

For the counties of Fresno, Kern, and Madera, where the recently enhanced curtailment thresholds are in place, Table A-4 uses the estimated curtailment days based on the "Proposed Threshold" columns of Tables B-9 and B-10. For the remaining counties, where the enhanced curtailment thresholds will only apply if contingency is triggered, this analysis uses the "Current Threshold" columns. The days all may burn are calculated from 120 days per year that curtailments are declared, and subtracting estimated number of days for both tiers of curtailments. B_{all} and B_{reg} are percentages, based on these numbers.

Finally, per District Rule 4901 §5.7.4, locations where natural gas service is not available are not subject to wood burning curtailments. To account for this, those

[16] EPA. (1996, October). *Residential Wood Stoves.* Retrieved 9/15/2020 from https://www3.epa.gov/ttnchie1/ap42/ch01/final/c01s10.pdf
[17] *Ibid.*
[18] *Ibid.*

[20] SJVACPD. (2019, June 20). Governing Board Agenda Item, June 20, 2019: Adopt Proposed Rule 4901 – *Wood Burning Fireplaces and Wood Burning Heaters.* Retrieved 9/15/2020 from https://www.valleyair.org/Board_meetings/GB/agenda_minutes/Agenda/2019/June/final/13.pdf

homes without natural gas service will be calculated with a B_{all} of 100%, which is to say they are allowed to use their devices 100% of days.

Table A-4 Estimated Curtailments

County	None May Burn	Registered May Burn	All May Burn	B_{all}	B_{reg}
Fresno	20	71	29	24.2%	59.2%
Kern	22	61	37	30.8%	50.8%
Kings	6	57	57	47.5%	47.5%
Madera	12	68	40	33.3%	56.7%
Merced	1	38	81	67.5%	31.7%
San Joaquin	2	45	73	60.8%	37.5%
Stanislaus	2	53	65	54.2%	44.2%
Tulare	4	52	64	53.3%	43.3%

VIII. Determining Rate of Registration of Eligible Devices (R)

R is calculated from the known number of registrations within the District, compared to the number of wood burning stoves purchased through the District's *Fireplace and Woodstove Change-Out Program*. The District's Grant Management Database was queried to determine the number of wood burning devices funded with *Fireplace and Woodstove Change-Out Program* incentives. Then the registration data was used to determine how many of those addresses had valid registrations on December 30, 2020. This results in an estimate of the fraction of *Fireplace and Woodstove Change-Out Program* participants that register their devices to take advantage of the additional days the new devices would be allowed to be used. The review of projects and registrations yield an R value of 14.0%.

By focusing on only devices funded with the *Fireplace and Woodstove Change-Out Program* this calculation of R value is higher than a similar calculation based on the total population of in use wood burning devices in the Valley. This results in a lower overall emissions reduction for each project, but represents a more conservative approach to emissions reduction estimates.

Using the factor B_{all} in the old unit emission calculation reduces the emissions from the replaced unit to only the % of the season it is allowed to be used. Similarly, the factor $B_{all} + (B_{reg} * R)$ reduces the emissions from the new cleaner stoves to only the days they are allowed to burn and scaling the days registered devices are allowed to burn based on the actual percentage of *Fireplace and Woodstove Change-Out Program* funded devices that are registered in the District.

IX. Project Emissions Reductions Equation

Finally, the emissions reductions for each project can be calculated, per:

$$E_{reductions} = E_{old} - E_{new} \quad \textbf{(Equation 7)}$$

Where:

$E_{reductions}$ = emissions reduced by project;
E_{old} = per **Equation 3**; and
E_{new} = per **Equation 4**.

X. Sample Calculation

In order to clarify the above methodology, an example showing the process to calculate emission reductions for one project is shown. The following project, demonstrated in Table A-5 below, is one included in Appendix C:

Table A-5 Sample Project Inputs

Project Number	C-47268-1
County	Madera
Old Device Type	Freestanding Non-Certified Wood Stove
New Device Type	Freestanding Certified Wood Stove
Emission Rating (g/hr)	2.1
Overall Efficiency	75%
Device Subtype	Non-Catalytic
Piped Natural Gas Service	True
Claim Date	9/20/2016

For this project, the above data inputs as well as values from Table A-1 through Table A-4 above are used to calculate the emission reductions as follows:
To calculate activity, using **Equation 5** as:

$$A = W \times \delta_{CA} = 2.61 \frac{cord}{year} \times 1.54 \frac{tons}{cord} = 4.02 \frac{tons}{year}$$

Where:

W = 2.61 cord/year is found in Table A-1 above for Madera County; and
δ_{CA} = 1.54 tons/cord.

Then the old unit emissions can be found using **Equation 3**, as:

$$E_{old} = A \times EF_{old} \times B_{all} = 4.02 \frac{tons}{year} \times 29.50 \frac{lb\ PM2.5}{ton} \times 33.3\%$$

$$E_{old} = 39.490 \frac{lb\ PM2.5}{year}$$

Where:

A = 4.02 tons/year;
EF_{old} = 29.50 lb PM2.5/ton from Table A-2; and
B_{all} = 33.3% from Table A-4.

To calculate the new unit emissions we first need to calculate the new unit emission factor using **Equation 6**:

$$EF_{new} = \frac{ER \times 1.5}{BR \times 2} = \frac{2.1\frac{g\ PM2.5}{hr} \times 1.5}{1.5\frac{kg}{hr}} \times 2\ \frac{\frac{g}{kg}}{\frac{lb}{ton}} = 4.2\ \frac{lb\ PM2.5}{ton}$$

Where:

ER = 2.1 g/hr from Table A-5; and
BR = 1.5 kg/hr.

Using these **Equation 4** yields:

$$E_{new} = A\ \times\ EF_{new}\ \times \left(\frac{NE_{conv}}{NE_{new}}\right) \times \left[B_{all} + \left(B_{reg} \times R\right)\right]$$

$$E_{new} = 4.02\ \frac{tons}{year} \times 4.2\ \frac{lb\ PM2.5}{ton}\ \times \left(\frac{54\%}{75\%}\right) \times [33.3\% + (56.7\% * 14.0\%)]$$

$$E_{new} = 5.017\ \frac{lb\ PM2.5}{year}$$

Where:

A = 4.02 tons/year;
EF_{new} = 4.2 lb PM2.5/ton;
NE_{conv} = 54% from Table A-3;
NE_{new} = 75% from Table A-5;
B_{all} = 33.3% from Table A-4;
B_{reg} = 56.7% from Table A-4; and
R =14.0%.

Finally, **Equation 7** can be used to calculate the project's emission reductions:

$$E_{reductions} = E_{old} - E_{new} = 39.490\ \frac{lb\ PM2.5}{year} - 5.017\ \frac{lb\ PM2.5}{year}$$

$$E_{reductions} = 34.473\ \frac{lb\ PM2.5}{year} = 0.0173\ \frac{tons\ PM2.5}{year}$$

San Joaquin Valley AIR POLLUTION CONTROL DISTRICT

Fireplace & Woodstove CHANGE-OUT
valleyair.org/change-out

California Climate Investments — Cap and Trade Dollars at Work

VOUCHER GUIDELINES

HOW DOES THE PROGRAM WORK?

Participation in the Fireplace & Woodstove Change-out program occurs in three phases:

PHASE 1	Voucher Application – Submit a complete application and all required documents to the District for voucher approval.
PHASE 2	Voucher Approved – Present your approved voucher to a participating program retailer and purchase and install your new device, or complete your fireplace decommissioning through a licensed contractor.
PHASE 3	Voucher Redemption – Redeem your voucher by submitting a complete Claim for Payment Packet to the District, and the District will reimburse you for eligible costs, up to the approved voucher amount.

For any questions about the program, please contact staff at (559) 230-5800, or by email at grants@valleyair.org.

INCENTIVE LEVELS

The most recent amendments to the District's Rule 4901 requires stricter residential wood-burning curtailments for three counties considered "Hot Spot" areas in the San Joaquin Valley: Madera, Fresno and the Valley Air Basin portion of Kern. Due to stricter curtailment thresholds and to encourage participation, enhanced incentives will be provided for eligible participants in those counties. In addition, as part of its requirements under Assembly Bill 617 (AB 617) to implement additional measures to reduce air pollution in disadvantaged communities, the District is providing enhanced incentives to participants who have residences located in the AB 617 selected Stockton Community and have access to piped natural gas. To verify if your residence is within the AB 617 Stockton Community boundaries, please visit the District's website for the community at community.valleyair.org/checkstockton.

The eligible incentive amount is based on the physical address *("Device Address" on application)* of the old wood-burning device that will be replaced through the program, and whether the residential property is in an area that has access to piped natural gas.

ACCESS TO NATURAL GAS	LOCATION OF OLD DEVICE	ELIGIBLE NEW DEVICE TYPE	INCENTIVE LEVEL
Residence WITH access to piped natural gas	***Hot Spot Counties*** Madera, Fresno, or the Valley Air Basin portion of Kern County, or ***AB 617 Stockton Community***	Natural Gas Insert/ Freestanding Stove	**Up to $3,500*** *+ $650 for eligible installation costs*
		Electric Heat Pump	**Up to $5,000***
	Kings, Merced, San Joaquin, Stanislaus or Tulare County	Natural Gas Insert/ Freestanding Stove	**Up to $2,000** *+ $650 for eligible installation costs*
		Electric Heat Pump	**Up to $3,500**
		Low-Income	**Additional $1,500** *for qualified applicants*
Residence WITHOUT access to piped natural gas	Fresno, Kings, Madera, Merced, San Joaquin, Stanislaus, Tulare or the Valley Air Basin portion of Kern County	Certified wood insert/ Freestanding stove	**Up to $1,000**
		Certified pellet insert/ Freestanding stove	**Up to $1,000**
		Natural Gas insert/ Freestanding stove	**Up to $2,000** *+ $650 for eligible installation costs*
		Electric Heat Pump	**Up to $3,500**
		Low-Income	**Additional $1,500** *for qualified applicants*
Fireplace Decommissioning *(Funding cannot be combined with replacement options)*			**Up to $750**

**Regardless of income*

VOUCHER GUIDELINES *(Continued)*

REQUIREMENTS & ELIGIBILITY

- The replacement or modification of the open hearth fireplace or old wood/pellet device must result in the reduction of emissions.
- The applicant identified on the application must be the home/property owner, or the tenant currently renting the Device Address identified on the application, to be eligible to apply for incentive funding through the Fireplace & Woodstove Change-out Program. Tenants are required to submit a Rental Property Owner & Tenant Approval Form with their application.
- To ensure the safe and proper installation of their new device, applicants must acquire any necessary permits and obtain proof that the installation of their new device meets all local, state or federal requirements through a final inspection by an applicable authority.
- The old device must not be dismantled and be in safe, operable condition, with all original parts intact at time of application.
- **One voucher allowed per device address.**
- **Do not** make any non-refundable payments, disassemble your old device or install your new device until you receive a District Voucher.
- Old gas stoves, gas inserts, gas fireplaces, devices with a gas log or electric heating devices are not eligible for replacement through this program.
- New certified wood or pellet devices must be identified on the current list of EPA Certified Wood Heaters to be eligible for Fireplace & Woodstove Change-out. For List of EPA Certified devices please visit https://cfpub.epa.gov/oarweb/woodstove/index.cfm?fuseaction=app.search
- New gas fireplaces must be certified as heater-rated, which are tested using the American National Standard ANSI Z21.88/CSA 2.33 *(Vented Gas Fireplace Heaters)*. Gas fireplaces that are designed exclusively for aesthetic and decorative use are **not eligible**.
- Old devices located in homes owned by local Public Housing Authorities are not eligible for replacement.
- Tenants in multi-unit residential complexes with more than two units are not eligible for low-income funding.
- The property where the device is to be installed must be located within the San Joaquin Valley (SJV) air basin, which includes the following counties: San Joaquin, Stanislaus, Merced, Madera, Fresno, Kings, Tulare and the SJV portion of Kern County.
- Installation of a new device must be conducted by the contracted Retailer, where new device was purchased, or a third-party contractor affiliated with that Retailer and under their direct supervision. Self-installation, installation by non-licensed contractor or a third-party contractor not affiliated with that Retailer is not eligible under this program.
- New device must be purchased from a contracted retailer by the applicant listed on the application and voucher. For a list of eligible retailers, visit valleyair.org/change-out.
- All old wood/pellet inserts and stoves replaced and removed through this program must be permanently destroyed by a licensed recycling/dismantling facility. Open-hearth fireplaces that have been replaced with a new freestanding stove or electric heat pump must be made permanently inoperable by completely removing the fireplace structure, or permanently sealing it. The open hearth may remain intact if a new stove is installed inside the existing fireplace. Temporary methods will not satisfy this requirement.
- Priority will be given to low-income applicants, those purchasing natural gas or eligible electric devices, and those that reside in an area without piped natural gas service. To be considered as low-income, applicants must complete and submit the Voucher Application and the Low-Income Eligibility Form for review. Forms are available at valleyair.org/change-out.
- The new device must remain installed at the device address for a minimum of three years.
- Incentive funding provided under this program is not for the repair of an existing unit.
- Electric heat pumps purchased through the program must be ducted (packaged or split) heat pumps or ductless mini-split heat pumps that are permanently installed. Electric heat pumps are not the same as electric fireplaces. For more information about electric heat pumps, please visit: www.energy.gov/energysaver/heat-pump-systems. Electric fireplaces, air conditioners, portable devices, and other electric (resistance) heating devices are not eligible for funding under this program. Applicants who have a heat pump project will be contacted by program staff and be required to complete and submit a Fireplace Decommissioning Form. For ductless heat pump projects, only one head is eligible for reimbursement.
- The eligibility of the applicant to participate in the program is at the sole discretion of the District.
- Before and after photos are required, see page 5.

VOUCHER GUIDELINES *(Continued)*

REQUIREMENTS & ELIGIBILITY *(continued)*

- "Decommissioning", for the purpose of this Program, means permanently rendering inoperable. The Fireplace Decommissioning option requires that applicants render their wood-burning fireplace, insert, or freestanding stove permanently incapable of burning wood. Temporary methods will not satisfy this requirement. The following must be completed:
  - Freestanding stoves must be removed and disposed of at a licensed recycling/dismantling facility and all piping and venting must be removed and any residual openings sealed.
  - Inserts must be removed and disposed of at a licensed recycling/dismantling facility and the remaining open hearth or wood-burning firebox decommissioned according to those options.
  - Wood-burning fireboxes must be fully removed along with any associated piping and disposed of at a licensed recycling/dismantling facility.
  - Open Hearths must be either fully removed, have the interior wood-burning area sealed by completely filling with blocks/bricks and cement, or sealing off the top of the chimney with 1-2 feet of cement.
- Fireplace Decommissioning must be completed and invoiced by a licensed contractor. The applicant is responsible for obtaining all necessary permits and completing required inspections to ensure the project meets federal, state, and local requirements. Please see the Fireplace Decommissioning Form for specific requirements.

VOUCHER GUIDELINES (Continued)

OPTION 1 – DEVICE ELIGIBILITY FOR FIREPLACE REPLACEMENT

The old device must be located at a residence within the District's boundaries. Applicants must submit an application and obtain an approved voucher from the District prior to purchasing the new device.

The eligibility of the new device is based on the old device type and whether the residential property is in an area that has access to piped natural gas.

		NEW DEVICE TYPE		
LOCATION OF OLD DEVICE	**OLD DEVICE TYPE**	**Certified Wood/Pellet** *Insert, Freestanding Stove or Fireplace*	**Natural Gas/Propane** *Insert, Freestanding Stove or Fireplace*	**Electric Heat Pump**
Areas with Access to Natural Gas	**Open Hearth** *Wood-burining Fireplace*	✗	✓	✓
	Non-Certified Wood/Pellet *Insert or Freestanding Stove*	✗	✓	✓
	Certified Wood/Pellet *Insert or Freestanding Stove*	✗	✓	✓
	Natural Gas/Propane *Insert or Freestanding Stove*	✗	✗	✗
	Electric *Insert or Freestanding/ Wall-mounted Fireplace*	✗	✗	✗
Areas without Access to Natural Gas	**Open Hearth** *Wood-burning Fireplace*	✓	✓	✓
	Non-Certified Wood/Pellet *Insert or Freestanding Stove*	✓	✓	✓
	Certified Wood/Pellet *Insert or Freestanding Stove*	✗	✓	✓
	Natural Gas/Propane *Insert, Freestanding Stove, Logs or Fireplace*	✗	✗	✗
	Electric *Insert or Freestanding/ Wall-mounted Fireplace*	✗	✗	✗

OPTION 2 – DEVICE ELIGIBILITY FOR FIREPLACE DECOMMISSIONING

The old device must be located at a residence within the District's boundaries. Applicants must submit an application and obtain an approved voucher from the District prior to any decommissioning work taking place.

Fireplace decommissioning Option 2 cannot be combined with Option 1 as only one voucher may be issued per address.

OLD DEVICE TYPE	FIREPLACE DECOMMISSIONING
Open Hearth *Wood-burning Fireplace*	✓
Non-Certified Wood/Pellet *Insert or Freestanding Stove*	✓
Certified Wood/Pellet *Insert or Freestanding Stove*	✓
Natural Gas/Propane *Insert, Freestanding Stove, Logs, or Fireplace*	✗
Electric *Insert or Freestanding/Wall-mounted Fireplace*	✗

VOUCHER GUIDELINES *(Continued)*

BEFORE AND AFTER PHOTO GUIDELINES

	Photo Guidelines	Sample Photos
Before Photos Two photos are required during the Voucher Application process (Phase 1) to determine eligibility.	1) First photo must show the inside of the unmodified device/hearth, with all doors/screen open. 2) Second photo must be taken from floor to ceiling to show the old device/hearth with all original parts intact, and surrounding structures that will clearly distinguish the location of the fireplace in the room. **PHOTOS MUST:** a. *Show device in its original location and have all original parts intact (i.e. panels, screens, etc.). For freestanding stoves, the Applicant must provide a photo with the pipe and ventilation system intact.* b. *Be taken before the installation of any parts for new device (i.e. new electrical outlets, etc).*	**Photo 1**  **Photo2** 
After Photo One photo is required during the Claim for Payment process (Phase 3)	1) Photo must be taken from floor to ceiling to show the new device/ hearth, and surrounding structures that will clearly distinguish the location of the fireplace in the room. a. *Please provide an explanation if the surrounding is different (i.e. major reconstruction, refacing of fireplace or new location).* **NOTE: Your claim may be delayed if staff cannot determine if the new device is in the same location as the old device.**	

ADDITIONAL PHOTO REQUIREMENTS FOR ELECTRIC HEAT PUMP PROJECT

	Photo Guidelines
Before Photos *Ductless Mini-Split Heat Pump Projects*	1) Include a floor to ceiling photo of where the heat pump head is expected to be mounted indoors. 2) Include a photo from roofline to the ground where the heat pump is expected to be set outside of the house.
Ducted Heat Pump Projects	1) Include a photo of where the heat pump is expected be installed (either indoors or outdoors).
After Photos *Ductless Mini-Split Heat Pump Projects*	1) Include a photo from floor to ceiling photo where the heat pump head was installed indoors. 2) Include a photo from roofline to the ground where the heat pump was set outside of the house.
Ducted Heat Pump Projects	1) Include a photo of the installed heat pump. For split system heat pumps a photo of both new sections is required
Decommissioned Old Device	Include photo(s) of the decommissioned old device as identified on the Fireplace Decommissioning Form you completed for your project.

ADDITIONAL PHOTO REQUIREMENTS FOR FIREPLACE DECOMMISSIONING PROJECT

All photo requirements are detailed on the Fireplace Decommissioning Form, and must be completed and submitted as part of the application and claim process.

VOUCHER GUIDELINES *(Continued)*

PAYMENT PROCESS

Payment Options	Steps
Instant Reduction *Only available to qualified low-income applicants who purchase from a retailer offering the Instant Reduction option. See the Fireplace & Woodstove Change-out Retailers List for retailers who provide this option.*	• After receipt of an approved voucher, applicant purchases an eligible new device from a retailer participating in the Instant Reduction Option and only pays for the cost of the new device and installation that exceeds the voucher amount. Voucher amount is applied directly at point of purchase through the retailer to reduce the out-of-pocket cost. • Applicant signs the voucher and gives the claim for payment packet to the retailer, who will submit it directly to the District for reimbursement of the reduced amount. For installations completed by a subcontractor (not retailer), applicant will need to submit a separate claim directly to the District for reimbursement of any remaining voucher amount. • Applicant must ensure the claim to reimburse the retailer is properly completed, including but not limited to, signing all necessary paperwork, providing appropriate supporting documentation and resolving any issues pertaining to the purchase and installation of the new device.
Reimbursement *Available to all qualified applicants. See the Fireplace & Woodstove Change-out Retailers List for all contracted retailers.*	• **Option 1** – Fireplace Replacement: After receipt of an approved voucher, applicant purchases an eligible new device from participating program retailer and pays for the entire cost of the new device, including installation. • **Option 2** – Fireplace Decommissioning: After receipt of an approved voucher, applicant completes fireplace decommissioning through a licensed contractor and pays for the entire cost of the project. • After making full payment, applicant submits a completed Claim for Payment packet, which includes copies of all invoices and receipts, to the District for reimbursement to the applicant.

Fireplace & Woodstove Change-out is funded in part by California Climate Investments, a statewide initiative that puts billions of Cap-and-Trade dollars to work reducing greenhouse gas emissions, strengthening the economy and improving public health and the environment — particularly in disadvantaged communities.

RETAILER

Applicants may visit any retailer participating in the Fireplace & Woodstove Change-out program and are not required to choose a retailer at the time of application. If you are working with a retailer, please provide their information below. The District may contact the retailer you listed below regarding your application.

Retailer Name

Sales Representative

PHOTOS

Two pre-installation photos are required with this application.

Photo 1 - Must show the inside of the unmodified device/hearth, with all doors/screens open.

Photo 2 - Must be taken from floor to ceiling to show the old device/hearth with all original parts intact, and surrounding structures that will clearly distinguish the location of the fireplace in the room.

If you intend to purchase an electric heat pump, or participate in the fireplace decommissioning option, additional photos will be required. See Voucher Guidelines for more information.

Photo Samples *(DO NOT FAX)*

Photo 2

AGREE & CERTIFY

By signing this application, I certify that I have read, understand and will adhere to the Fireplace & Woodstove Change-out Program Voucher Guidelines and agree to all the following:

- *I understand that the installation of a new device must be conducted by the contracted Retailer, where new device was purchased, or a third-party contractor affiliated with that Retailer and under their direct supervision. Self-installation, installation by non-licensed contractor or a third-party contractor not affiliated with that Retailer is not eligible under this program.*
- *I understand that submission of this voucher application **does not guarantee** incentive funding for the new device.*
- *I understand that it is my responsibility to verify that the new device is eligible under the program guidelines. New wood or pellet devices must be on the current list of EPA Certified Wood Heaters and new gas fireplaces must meet ANSI z21.88/CSA2.33.*
- *I will be removing an operable old device or modifying an open hearth fireplace at the device address specified on this voucher application.*
- *If applicable, I agree to surrender my old device to a licensed recycling/dismantling facility or to the participating retailer to dispose of at a licensed recycling/dismantling facility within **90 days** of installation of the new device. If I undertake the responsibility of disposing my old device, I agree to submit a dated receipt and certification from the dismantler/recycler that my old device will be permanently destroyed.*
- *I understand that if I install the new device in a location other than what is identified in the pre-installation photos at the device address, I must first contact District staff to receive approval and I must still render the old device permanently inoperable. At the time of claim, where I will be seeking reimbursement for the completion of my project, I will be required to provide additional documentation, such as additional photos, to confirm that the location of the old device can no longer accommodate a wood-burning device.*
- *I understand that the selection of a Fireplace & Woodstove Change-out retailer is completely my choice and the District does not endorse, or is not in partnership with any Fireplace & Woodstove Change-out program retailers or installers and any such issues arising from the purchase or installation of the new device is between the applicant and the retailer or installer. The District will not be held liable for any circumstances or events that occur between the applicant and retailer or installer. Participating retailers are independent contractors; they are not officers, representatives, agents, servants, employees, partners, associates, etc. of the District.*
- *I understand that this is a reimbursement program and I will not be reimbursed until the new unit is paid in full, completely installed, and a complete Claim for Payment packet is submitted to the District. For low-income applicants who are eligible for the Instant Reduction option, please see page 2 of the Voucher Guidelines for payment processing.*
- ***I have not made any non-refundable payments towards the purchase of the new device or disassembled my old device, and will not install the new device until I have received an approved voucher from the District.***

Printed Name of Applicant | Applicant Signature | Date

CHECKLIST - Phase 1

Please make sure you submit the following:

- ☐ Two Pre-installation photos *(choose one)*
  - ☐ *Attached to App.* ☐ *Emailed* ☐ *Sent by Retailer*
- ☐ If applicable, Low-Income Documents
- ☐ If applicable, Standard Tenant Documents
- ☐ If applicable, required photos for electric heat pump project *(see Voucher Guidelines)*
- ☐ If applicable, Fireplace Decommissioning Form

LOW INCOME ELIGIBILITY FORM

Please complete this form, and submit it with required income documentation along with the Voucher Application.

Applicant First and Last Name

Device Address

HOUSEHOLD INFO

Low income eligibility will be determined based upon household size and the total household income.

# of People in Household	Max ANNUAL Gross Income		Max Monthly Gross Income
1	$33,885	or	$2,824
2	$45,990	or	$3,833
3	$58,095	or	$4,841
4	$70,200	or	$5,850
5	$82,305	or	$6,859
6	$94,410	or	$7,868
7	$106,515	or	$8,876
8	$118,620	or	$9,885
8+ *add the following amount for each person*	$12,105	or	$1,009

* *The Income Eligibility Table is updated during February of each year.*

Please fill in the following information:

Number of People in Household: _____

Household includes applicant, and as applicable, your spouse and/or all other persons who can be claimed as a dependent for tax purposes.

Total Household Gross Income: _____ ☐ Monthly ☐ Annually

This is the adjusted gross income as listed on your most recent IRS 1040 tax form. If more than one person in the household filed taxes, provide the sum of the adjusted gross incomes. If you did not file taxes, provide the total of all sources of income from all persons in the household who receive income.

INCOME VERIFICATION

Documents Required for Income Verification of all Household Members

Provide a completed copy of federal income tax Form 1040 (pages 1 & 2) or Tax Return Transcript from the most recent tax year for all members of the household who filed taxes. **Please redact all sensitive information, such as social security numbers, when submitting the copy**. You can obtain a Free Tax Return Transcript at www.irs.gov/individuals/get-transcript. If any dependent is over the age of 17, please provide documentation verifying their income or a statement regarding their income status.

OR: If you did not file a tax return this past year, you must provide the following:

1) A brief explanation as to why you did not file taxes this past year:

_____

_____

2) Copies of documentation from all issuing agencies that verifies the household income you identified. This documentation must cover the last 60 days for **all household members** who receive income. Documentation must identify the individual and amount of income received. Examples of acceptable documentation include, but are not limited to, the following:

- ☐ Check stubs; or
- ☐ W-2(s) for past year; or
- ☐ Social Security award letter for retirement, disability Supplemental Income (SSI), or Medicare benefits; or
- ☐ State Supplemental Payments (SSP); or
- ☐ Temporary Assistance for Needy Families (TANF); or
- ☐ General Assistance (GA) or General Relief (GR); or
- ☐ Publicly subsidized full medical coverage (Medi-Cal); or
- ☐ Housing Choice Voucher Program (must provide a copy of the housing assistance payments (HAP) contract).
- ☐ CAL Fresh; or
- ☐ California Work Opportunity and Responsibility to Kids (CalWORKS)

CERTIFY

I acknowledge that the information provided on this form will be used to assess and verify my low-income eligibility for the Fireplace & Woodstove Change-out program. My signature gives consent for this information to be shared with other government agencies. I declare, under penalty of perjury under the laws of the State of California, that to the best of my knowledge the information on this application is true and correct. I understand that submitting false information may result in criminal conviction or in a civil penalty of not less than $150 and not more than $1000, and that I will not be eligible to receive future assistance.

CALIFORNIA CLIMATE INVESTMENTS
Cap and Trade Dollars at Work

RENTAL PROPERTY OWNER & TENANT APPROVAL

Rental property owners and tenants are eligible to apply for the Valley Air District's Fireplace & Woodstove Change-out Program. This form must be completed by both the rental property owner and primary tenant, and submitted with the required documents to be considered for a voucher. Please be sure to check the appropriate boxes on the Voucher Application regarding the Applicant Status and Applicant Type.

This form is only required to be completed and submitted if:

- **You are the primary tenant** who will be purchasing an eligible new device regardless of the type of application you will be submitting, Standard or Low-Income.
- **You are the rental property owner** who will be purchasing an eligible new device under the Low-Income application. If you are a rental property owner and will be submitting a Standard application, you are not required to complete and submit this form.

REQUIRED

In addition to this form, please submit the following:

Lease Agreement	Copy of the complete signed lease agreement between the property owner and occupying tenant with a minimum of six (6) months remaining from the date of the application submittal. If you cannot provide this documentation, please contact program staff.
Proof of Residence	Most recent utility bill (electricity, cable/satellite, water/garbage, etc.)

AGREE & CERTIFY

By signing this form, the rental property owner and the tenant agree to replace the existing, higher-polluting residential burning device located at the device address identified on the application with an eligible new cleaner burning device according to the Program guidelines, and agree to the following:

1. *Tenant agrees to provide supporting documentation, as needed by the District, to determine low-income eligibility. If the rental property owner is applying under the Low-income application, the tenant has the option to submit supporting documentation such as income verification directly to the District in lieu of providing it to the rental property owner.*
2. *The rental property owner shall keep the new device obtained through the Fireplace & Woodstove Change-out Program in the rental property in which it is installed, unless it is otherwise required to be removed for, but not limited to, safety or regulatory reasons as deemed appropriate by the District. The device shall become the property of the rental property owner, not the tenant or the District.*
3. *The rental property owner shall not raise the rent or evict the tenant because of the increased value of the rental property due solely to the installation of the new hearth device funded by the District.*
4. *The rental property owner and the tenant agree that payment of the incentive funding provided through the Program shall be made to the party that purchased the new hearth device.*

FIREPLACE DECOMMISSIONING FORM

This form must be completed and signed when decommissioning a wood-burning fireplace and is also required for new electric heat pump applications. *"Decommissioning", for the purpose of this Program, means permanently rendering inoperable.*

APPLICANT

First and Last Name

Device Address	City	State	Zip Code

TYPE OF WORK TO BE PERFORMED

Freestanding Wood/Pellet Stove

☐ I will have my freestanding wood/pellet stove removed and delivered to a licensed dismantling/recycling facility. A dated receipt from the dismantling/recycling facility must be obtained as proof of destruction and the facility must sign the Destruction Verification section of the Claim for Payment Form. In addition, I will remove all piping associated with the freestanding stove and permanently seal off the ceiling opening.

📷 *Photo requirement: Must include photo of the ceiling after it has been permanently sealed off. Must include a photo taken from floor to ceiling of the room after the freestanding stove is removed. Additional photos documenting the process are encouraged.*

Wood/Pellet Insert

(This option requires an additional selection from either the Wood-burning firebox or Open-hearth fireplace section)

☐ I will have my wood/pellet insert removed and delivered to a licensed dismantling/recycling facility. A dated receipt from the dismantling/recycling facility must be obtained as proof of destruction and the facility must sign the Destruction Verification section of the Claim for Payment Form.

Wood-burning firebox

☐ I will have my wood-burning firebox and all piping associated with the wood-burning firebox removed and delivered to a licensed dismantling/recycling facility. A dated receipt from the dismantling/recycling facility must be obtained as proof of destruction and the facility must sign the Destruction Verification section of the Claim for Payment Form.

📷 *Photo requirement: Must show the fireplace after the wood-burning firebox and all piping associated with the firebox is removed. Must include a photo after the opening is permanently sealed off with drywall. Additional photos documenting the process are encouraged.*

Open-hearth fireplace

☐ I will completely remove my chimney and wood-burning fireplace

📷 *Photo requirement: Must include both an interior and exterior photo after the fireplace is completely removed. Must include a photo taken from floor to ceiling of the area where the fireplace previously existed after it has been remodeled. Additional photos documenting the process are encouraged.*

☐ I will permanently seal up my fireplace with masonry. This option requires the interior wood-burning area of the fireplace to be completely filled in with block or bricks and cement.

📷 *Photo requirement: Must include a photo at the beginning of the process, the middle of the process and the end of the process when the fireplace has been permanently sealed.*

☐ I will permanently seal off the top of my chimney with cement. This option requires 1-2 feet of cement to seal off the top of the chimney.

📷 *Photo requirement: Must include a photo after the top of the chimney has been prepared but before the cement has been poured. In addition, a photo after half of the required cement has been poured and a photo after the top of the chimney has been permanently sealed off with cement. Additional photos documenting the process are encouraged.*

CERTIFICATIONS

I, the applicant, certify the following:

- *I have read all the options and understand the requirements outlined in this form. I understand that I will not be reimbursed for this project until the San Joaquin Valley Air Pollution Control District (District) deems my wood-burning fireplace fully decommissioned.*
- *The District requires the use of a state licensed contractor when doing work related to the decommissioning of the wood-burning fireplace. The contractor must complete a Fireplace Decommissioning Contractor Certification Form (will be included with the voucher packet). I understand that I will not be reimbursed for any work performed by an unlicensed contractor.*
- *I assume all the risk and outcome of the fireplace decommissioning work completed for this project. I understand that I am responsible for obtaining all necessary permits and completing required inspections to ensure the project meets federal, state and local requirements.*
- *I understand that if I currently have a freestanding stove or fireplace insert, I am responsible for obtaining a dated receipt from a dismantling/recycling facility as proof of destruction. Freestanding stove and fireplace insert projects are not eligible for reimbursement without a dated receipt from a dismantling/recycling facility.*
- *I understand that I will need to provide photographic proof throughout the wood-burning fireplace decommissioning process, from start to finish. The photos must clearly shows all steps taken and I agree to submit these photos with the claim for payment packet.*

Program Retailers

Applicants must purchase a new device from a retailer on this list. Applicants have full discretion when choosing a retailer. The District does not endorse or employ any of the listed retailers. To assist qualified low-income applicants with their purchase, participating retailers are offering a reduced upfront cost for the purchase of a new device. If you are a low-income applicant, please feel free to visit a participating instant reduction retailer identified on this list, or contact program staff at (559) 230-5800 for more information.
