Phase Out of Open Agricultural Burning in the San Joaquin Valley

GRAPE GROWERS

- **Jan 1, 2022**
  - Cordon (Spur-Pruned)
    - Prohibit burning at ag operations with >2,000 acres of total vines at all locations
  - Cane-Pruned
    - Prohibit burning at ag operations with >500 acres of total vines at all locations

- **Jan 1, 2023**
  - Cordon
    - Prohibit burning at ag operations with >1,000 acres of total vines at all locations
  - Cane-Pruned
    - Prohibit burning at ag operations with >250 acres of total vines at all locations

- **Jan 1, 2024**
  - Cordon
    - Prohibit burning at ag operations with >250 acres of total vines at all locations
  - Cane-Pruned
    - Prohibit burning at ag operations with >100 acres of total vines at all locations

- **Jan 1, 2025**
  - All operations prohibited from burning all sizes of removals except in cases of disease and pest concerns
  - Raisin Trays
    - Prohibit open burning of raisin trays

CITRUS GROWERS

- **Jan 1, 2021**
  - Prohibit all citrus orchard removal open burns >15 acres

- **Sept 1, 2021**
  - Prohibit citrus orchard removal open burns >15 acres at ag operations with total citrus acreage at all sites >500 acres
  - Prohibit burning of removals >40 acres at a single location per year
  - Maintain case-by-case determination for removals 15-40 acres at ag operations ≤500 acres

- **Jan 1, 2022**
  - Prohibit orchard removal open burns ≤15 acres
  - Lower prohibition acreage threshold of farms to >200 acres
  - Lower prohibition removal size threshold to >30 acres
  - Maintain case-by-case for removals 15-30 acres at ag operations ≤200 acres

- **Jan 1, 2023**
  - Prohibit orchard removal open burns ≤15 acres at ag operations with >200 acres of total orchards at all locations

- **Jan 1, 2024**
  - Prohibit orchard removal open burns ≤15 acres at ag operations with >100 acres of total orchards at all locations

Incentive Funding is NOW AVAILABLE
