

District Oil and Gas Workshop 2024 Training Schedule

The District’s Compliance Department has scheduled several three-hour US EPA Method 21 and Oil and Gas Leak Detection and Repair (LDAR) training workshops for 2024. This course is an optional training for facilities designed to highlight recent rule amendments with a focus on LDAR requirements for the following rules: District Rules 4401 (Steam-Enhanced Crude Oil Production Wells), 4409 (Components at Light Crude Oil Production Facilities, Natural Gas Production Facilities, and Natural Gas Processing Facilities), 4623 (Storage of Organic Liquids), and 4624 (Transfer of Organic Liquid). The course will also include the LDAR requirements in Section 95669 of the California Oil and Gas Regulation Title 17, Division 3, Chapter 1, Subchapter 10 Climate Change, Article 4, Sub article 13: Greenhouse Gas Emission Standards for Crude Oil and Natural Gas Facilities.

Who Should Attend: Any individual who represents an owner or operator of a subject facility or who performs leak detection and repair at a subject facility.

Course Host: The course will be presented by the Compliance Department.

How to Register: Reservations are required as class size is limited. Please reserve your spot by contacting the Southern Region Office by phone at 661-392-5500 or by email at compliance@valleyair.org.

Course Fee: There is no fee to attend this course.
